AQUARELY

with intense micro pigments and wheat proteins

Exclusive permanent coloring formulated with innovative nano-micro-emulsified pigments can penetrate better into the trunk with a low content of ammonia and with wheat proteins that overhauling capello , leaving it hydrated and soft , brilliant.
The color is vibrant and lasts longer, guaranteeing a perfect white hair coverage.

Contains:

- **INTENSE MICRO PIGMENTS:** pigment nano-microemulsionati are able to penetrate deep between the cavities and bind to keratin hair fibers. An important advantage that comes from the use of this innovative technology is the reduction of the already low content of ammonia because the reduced pigment size requires only a partial opening of cuticles is increasing so the seed.
- **WHEAT PROTEIN:** hydrolysed wheat proteins play conditioning and restructuring action , protecting the scalp and capillary fibers , giving it softness and silkiness to hair. Their is also effective anti-oxidant and reduces the formation of free radicals.
- **LAVENDER ESSENTIAL OIL:** the delicate lavender essential oil is the greatest application in capillary treatments where the calming and disarrossanti allow the use of bleaching powder even if applied on sensitive skins.

shades: 103 pitches.
