ADVANCED RENEWAL SYSTEM ADVANCED RENEWAL SYSTEM

the keratin straightening system

With Kerabond Technology, the products are free of formaldehyde and leave intact the color. With three simple steps its nutrient -rich formula increases elasticity and combing up to three months after treatment. You can proceed to shampoo the same day without tedious waiting times for washing.

STEP 1 ACTIVATE

STEP 1 ACTIVATE Apply to wet hair. On dry hair, damaged or stained, apply STEP 3 SEAL immediately after rinsing STEP 1 ACTIVATE. Blot with a towel to remove excess solution and proceed to STEP 2 SMOOTH.

box: 500 ml bottle with dispenser.

SMOOTH STEP 2

Pour 15 ml of SMOOTH STEP 2 in a bowl, apply from roots to ends using a brush dyeing, massage the product in each section of the head, smoothing the lock with a tail comb, proceed to each section of the head, wait for 30 to 60 minutes smoothing the locks every 5/10 minutes. Dry your hair up to 90%, finish drying with the plate. Divide the hair into three large sections, slowly move a plate from 5 cm to 177-193 ° C. (Do not exceed the indicated temperature). Pass the plate 3 to 5 times per strand, no more than 5 steps.

box: 500 ml bottle with dispenser.

STEP 3 SEAL

Rinse your hair with water for 3 /5 minutes until the product is completely removed, apply a generous amount of SEAL STEP 3 in the hair, leave on for 3 /5 minutes and rinse thoroughly. Proceed with styling.

box: 500 ml bottle with dispenser.
