PROTOPLASMINA POSOLOGY

comprehensive program for persistent fall lasting 4 weeks

Is a comprehensive 4 week intensive program, specifically for cases of pronounced hair loss that develops in 4 specific phases.

- being prepared/Sanitizer: uses the properties of a specific product to release the hair from sebum and toxins and prepare it to assimilate better ingredients contained in subsequent treatments.
- cleaning/TRICOSHAMPOO SUPPLEMENT anti-aging BIO-bathroom that deeply cleanses the skin and hair and skin and gently make substances essential to the life of the bulbs.
- phase contrast/fall that uses the properties of PROTOPLASMINA Shock ACTION to counteract hair loss and the processes of cellular aging.
- integrative/bio stimulant phase-PROTOPLASMINA TRICOACTIVE that makes up the substances essential to improve their functionality and to stimulate hair growth and strengthen the structures.
