SCIROCCO

hair dryer designed to eliminate the use of wipes

- Completely eliminates the residuischiumogeni.
- No Rinse can give best result.
- Strengthen permanent.
- Ecological and economical: reduces the cost of labour.
- Great to reduce the drying time of the fold.

MADE FOR THE TECHNICAL DEPARTMENT

After you have washed and rinsed my hair, no longer used the towel to dry, but SCIROCCO with comb and filler. Delete all the water from your hair and blowing debris that lurk beneath the scales (no hot or warm water rinse would give similar results). Respects the scales leaving hair shiny, silky, just moist, completely eliminating the use of the towel. At the end of the day there will be no more mountains of smelly towels to wash.

INDISPENSABLE FOR PERMANENT

Very often the permanent loses tone for a poor rinsing when acid and water, remaining between the rollers (especially behind the neck), prevent the attachment of giving strength to permanent. All this with SCIROCCO won't happen again. After developing a Perm, do not use the towel to DAB, but pass the suction nozzle on curlers. Pick up all the water and acid residues leaving the rod just moist and clean. You can then move on to fix securely.
