FUDGE PAINTBOX - EXTREME COLORS

semi-permanent color

No ammonia and no peroxide. It allows you to color the hair, which seems dull and boring. It lasts from 3 to 30 washes ensuring bright, vibrant results on already bleached hair and softer shade of natural hair.

Shades available in the series : EXTREME SHADES, 12 shades ; PASTEL FORMULA, 11 shades ; COLOUR GLAZE FORMULAS, 10 shades

method of use : after testing the color result on a strand of hair, wash hair with your favorite shampoo Fudge and pat dry with a towel. PAINTBOX squeeze in a bowl. With a tint brush, apply the product evenly through your hair, taking care not to stain the scalp. Distribute the color through the hair with a wide tooth comb. For lighter shades, comb longer.

Waiting time: between 15-30 minutes. Rinse hair thoroughly with warm water until all residues are removed and the water color is not clean

box: 75 ml tube
