VOILA CREAM NATASPHERE 4 - CREAM DYE VOILÀ CREME NATASPHERE 4 - tintura in crema

new VOILA CREAM NATASPHERE 4 is based on an innovative technology micronization of the active elements that guarantee maximum color result with full respect for the hair.

- Formula emulsified based non-ionic surfactants which allow the color pigments to penetrate more quickly into the hair. Therefore contains less ammonia and less dye intermediates and is sweeter on the hair.
- It is enriched with liquid crystal emulsion that make the course more akin to hair providing protection and hydration.
- Provides a delayed process of oxidation that causes the dye to penetrate more effectively into the hair fiber.
- The inclusion of the active ingredient complex ensures Natasphere 4 :
 - For the color : better penetration of color and color mixing with the natural pigments present in the hair
 - For the health of the hair : the new formula concentrates vitamins, trace elements, minerals, amino acids and glycogen
 - Retain the active substances that interact in complex
 - Issue gradually concentrate ensuring the health of the hair

method of use : oxidizer to mix with cream Bisabolol 1:1.5

With VOILA SUPERLIGHT the dilution ratio is 1 to 3

box: 60 ml tube
