HYDROGEN PEROXIDE EMULSIFIED ACQUA OSSIGENATA EMULSIONATA

Allwaves hydrogen peroxide comes in versions neutral and fragrant. His emulsified formula provides greater consistency with respect to the normal hydrogen peroxide liquid. The creamy density allows an easier use, avoiding undesirable problems of leaking and offers the advantage of a lower aggressiveness for the hair. Available in 10 - 20 - 30 - 40 volumes.
box: 1000 ml bottles
