SAVE COLOUR - COLOUR RETAIN

treatment for the maintenance and color fastness

COLOUR SAVE FreeLimix is a balancing treatment for capillary shown colored and treated hair. Thanks marine elastin, which penetrates deep into the hair bringing nourishment and improving the layout of the scales, shampoo and mask removes alkaline residues of coloration and form a protective film that shields it from external agents ensuring a perfect seal and delaying the discharge of color.

The Alpha Hydroxy Acids will complete the action by stimulating cell turnover and preserving the color dall'opacizzazione.
