COLORS EXTENSILK I COLORI DI EXTENSILK

LOCKS WITH KERATIN

The proposals EXTENSILK are available in 64 colors including: 30 colors NATURAL and RICCI, 22 colors and 12 colors with VIBRANT STREAKS. Lengths of 30 - 40 - 50 - 60 cm.

EXTENSILK locks allow a precise application and resistant to all the stress, due to the particular form of the resin with keratin. The hair strands are immersed in the keratin and enforcement will blend seamlessly with the client's hair.

EXTENSILK uses a type of locks, to be used with any machine.

A large amount of hair is immersed in the keratin, in order to achieve full strands, abundant, resistant to all the stress. I applied hair blend with those of the client, creating a sweet and strong bond that lasts over time and are removed with ease respecting the integrity of the original.

SWEETOUCH TECHNOLOGY

one machine for 2 technologies : hot and cold

The application is even more accurate, fast and safe thanks to the unique machine for the application of two technologies : a HOT and COLD.

In fact, the device can use the clamp SUN hot, perfect for modeling applications at will, especially the ultra-fine strands, and the caliper ULTRASONIC cold applications for fast, accurate to ensure the highest reliability.

SWEET TECHNOLOGY is :

- safe : no electromagnetic emissions
- Reliable : temperature and time always readable,
- simple and functional controls are clear and easy to use,
- Intelligent recognizes one device two different technologies.
